

Eyes From The Street

Today

- ♦ Reflecting on FOIAs and Edu-Veillance
- ♦ Final Project Overview
- ♦ Case Study: Arrest Records
- ♦ Demo: Data Storytelling
- ♦ ? Final Project Brainstorm Sesh ?

FOIAs Feedback + Edu-Veillance Thoughts?

- ♦ Who did you submit to? What did you submit? How do you feel about it?
- ♦ Any confirmation or response?
- ♦ Responses to piece on student surveillance: tensions between safety and surveillance + consent?

Final Project

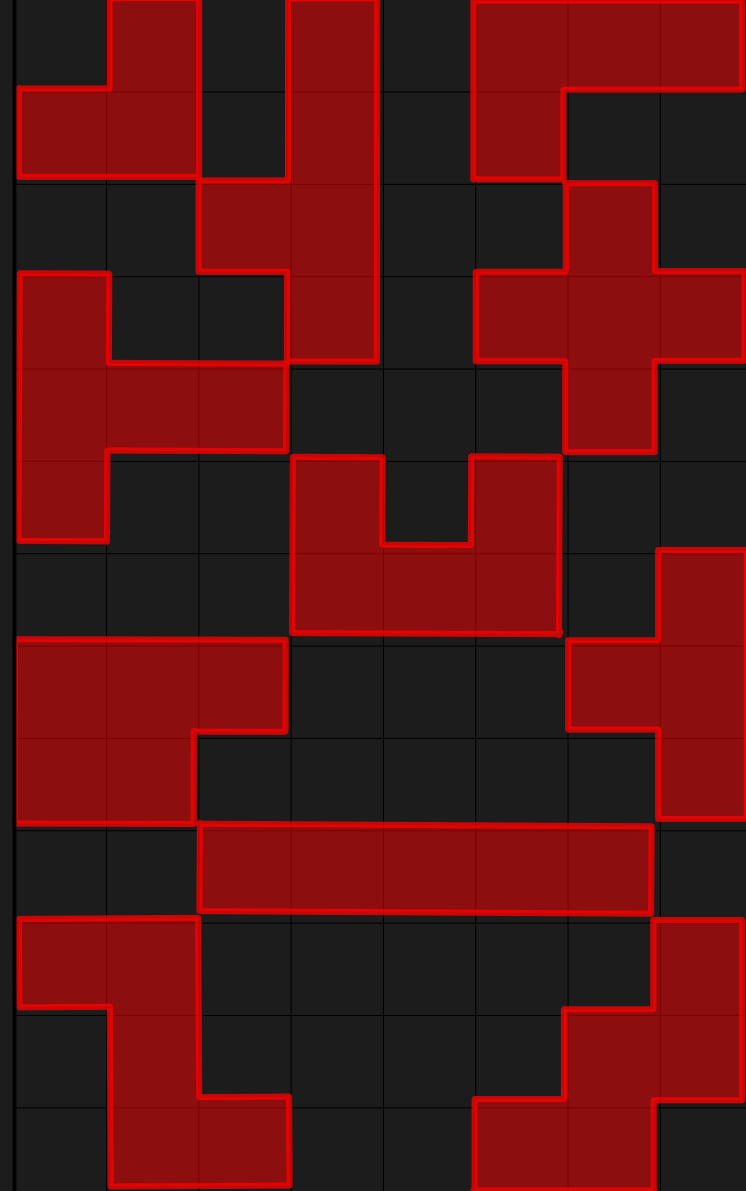

- ◆ Deep dive into a state surveillance mech
 - ◆ Gather data, interview people, go on a walk and look around, tinker on your phone, etc
- ◆ Translate your findings/feelings into a creative piece or resource
 - ◆ Video art, zine, sound piece, podcast, social media video, poem, performance, workshop, draft of something longer, anything really
 - ◆ See discussion board examples (larger scope)

Arrest Records

- ◆ NYPD biometrics “innovation” during anarchist bombings way back when
 - ◆ Auto-expire in some states not the case in many. May start legal action to seal or expunge. (ex: IL NGO)
- ◆ Little consistency state-to-state or county-to-county
 - ◆ State held repos of local police data (FL public search)
- ◆ May or may not include restitution/time served or outcomes of a case (ex guilt/not guilty)

Federal

- ♦ Managed by FBI (also states report)
- ♦ Criminal charge, date of charge, indictments, sometimes v brief officer note, govt jobs history + clearances
- ♦ Removed only through expungement or sealing (not auto after 7 years – only in credit reporting)

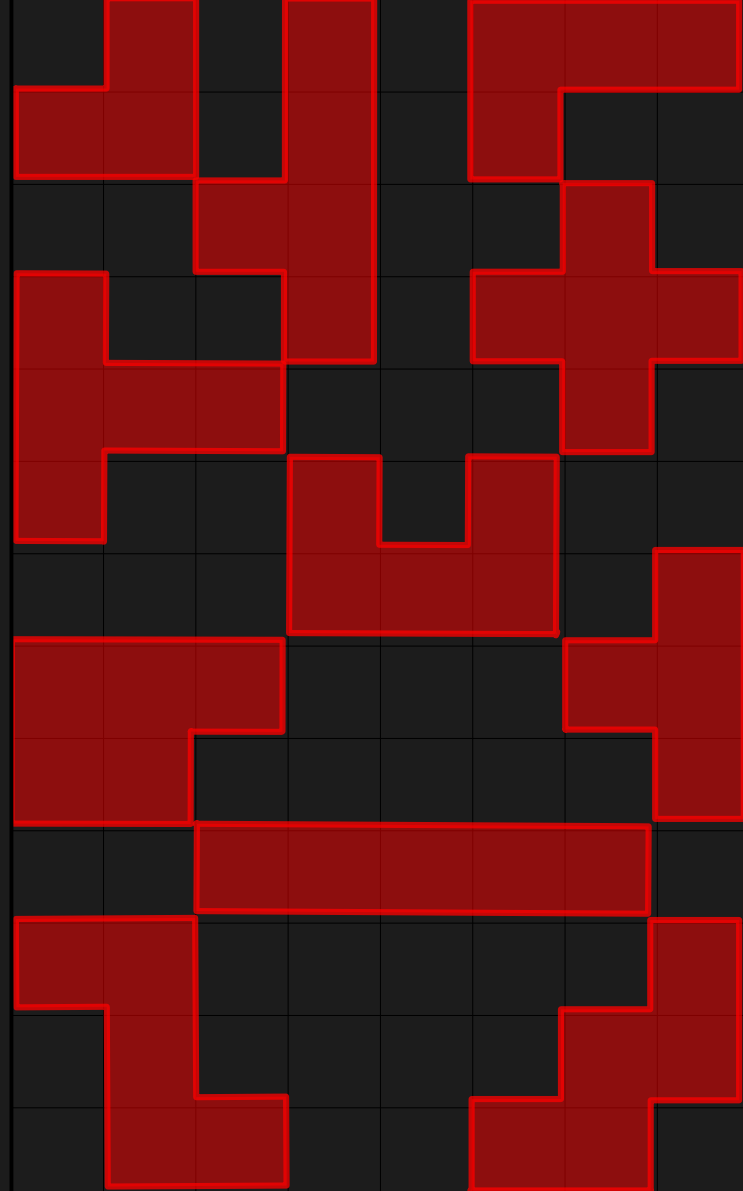

NY State & Arrest Records

- ◆ Clean Slate Act
 - ◆ Must be implemented by 2027
 - ◆ Auto-expungement after 10 years if:
 - ◆ Less than 2 convictions (max one felony)
 - ◆ No criminal charges in that decade

Data Storytelling

- ◆ Useful to draw conclusions and to accessibly communicate
- ◆ Can pull from machine readable files (.csv, etc) or manually create in a spreadsheet program
 - ◆ CSV + R
- ◆ Visualize in so many ways (ex: datawrappr.io)

More about you!

- ♦ What brought you to this space?
- ♦ Any experiences in the realm?
- ♦ Any ideas for a project? Seeking collaborators?
